

March 21, 2025

Dear Mr. Mrs. _____

Subject : Microcredentialing for BSIT Students

Greetings of Fortitude, Excellence and Uprightness!

As we continue to prepare our students for excellence in the ever-evolving field of information technology, we are excited to announce a valuable opportunity for our Bachelor of Science in Information Technology (BSIT) students.

From April to May 2025, students will be undertaking microcredentialing sessions focused on **Information Security and Privacy**, one of the most critical areas in today's IT industry. This training aims to enhance our students' competencies in safeguarding data, ensuring privacy, and mastering cutting-edge security protocols.

The **Certificate in Information Security and Privacy** will:

1. Strengthen students' credentials with industry-relevant certification.
2. Develop practical skills in cybersecurity that align with global standards.
3. Serve as a foundation for pursuing further professional certifications.

To ensure the program's quality, the microcredentialing process will include online and on-campus sessions, featuring interactive workshops, lectures, and hands-on projects. The program comes with a participation fee of **₱3,500.00**, which covers instructional materials, resources, and certification costs. Fee can be settled in full or in two (2) terms within the 2nd Semester of SY 2024-2025.

We are confident that this initiative will greatly benefit your child's academic and professional journey. A detailed schedule and additional program guidelines will be shared soon. Should you have any questions or require further assistance, please don't hesitate to contact me or the Program Head at sviana@feuroosevelt.edu.ph

Thank you for your unwavering support in your child's education. Together, let us continue to shape their bright future in the IT industry.
